1 GENERAL

This Series Memorandum (as used herein, this “**Series Memorandum**”) is prepared in connection with the EUR 5,000,000,000 secured note programme (the “**ETPCAP Programme**”) of ETPCAP2 Designated Activity Company (the “**Issuer**”) and is issued in conjunction with, and incorporates by reference the contents of, the Programme Memorandum dated 5 November 2018 relating to the ETPCAP Programme (the “**Programme Memorandum**”).

Neither this Series Memorandum nor the Programme Memorandum constitutes a prospectus for the purposes of Regulation 2017/1129/EU (the “**Prospectus Regulation**”) or the version of the Prospectus Regulation that forms part of domestic law of the United Kingdom of Great Britain and Northern Ireland (“**UK**”) by virtue of the European Union (Withdrawal) Act 2018 (the “**UK Prospectus Regulation**”).

This document should be read in conjunction with the Programme Memorandum and the Master Conditions (November 2018 Edition). Save where the context otherwise requires, terms defined in the Programme Memorandum have the same meaning when used in this Series Memorandum. Recipients of this Series Memorandum who intend to subscribe for or purchase any Notes are reminded that any subscription or purchase may only be made on the basis of the information contained in this Series Memorandum and the Programme Memorandum.

Subject as set out below the Issuer accepts responsibility for the information contained in this Series Memorandum other than the information in sections:

1. Description of the Custody Account that relates to the Custodian;
2. Description of the Securities Account that relates to the Securities Account Provider
3. Information relating to the Portfolio Management Agreement;
4. Information relating to the Programme Coordinator and Calculation Agent; and
5. Information relating to the Back Office Agent, Broker Dealer of Record and Charged Assets Realisation Agent.

To the best of the knowledge and belief of the Issuer (which has taken all reasonable care to ensure that such is the case), any information for which it accepts responsibility contained in this Series Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information. The Issuer confirms that the information in the sections referred to in 1. to 5. above has been accurately reproduced from information provided by (a) the Custodian, (b) the Securities Account Provider; (c) the Portfolio Manager, (d) the Programme Coordinator and Calculation Agent and (e) the Back Office Agent, Broker Dealer of Record and Charged Assets Realisation Agent, respectively, and as far as the Issuer is able to ascertain, no facts have been omitted which would render the reproduced information inaccurate or misleading.

This Series Memorandum does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation, and no action is being taken to permit an offering of the Notes or the distribution of this Series Memorandum in any jurisdiction where such action is required.

No person is or has been authorised by the Issuer to give any information or to make any

representation not contained or not consistent with this Series Memorandum or Programme Memorandum in connection with the issue or sale of the Notes. If given or made, such information or representation must not be relied upon as having been authorised by the Issuer, the Programme Coordinator, the Trustee or any of them or any other person. Such information or representation could potentially be misleading in a material respect and should not be relied upon for the purposes of any assessment of whether to invest in the Notes.

Neither the delivery of this Series Memorandum or the Programme Memorandum nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of the Issuer since the date hereof.

The Trustee has not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking is made, whether express or implied, and no responsibility or liability is accepted by the Trustee as to the accuracy, completeness or nature of the information contained in this Series Memorandum, the Programme Memorandum or with respect to the legality of an investment in the Notes by any prospective investor or purchaser under applicable laws or investment restrictions or similar laws or regulations.

Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of the provisions set out within this Series Memorandum and the Programme Memorandum.

The Notes, which are described in this Series Memorandum, have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the “Securities Act”) or the securities laws of any of the States of the United States. Accordingly, the Notes are being offered and sold only in bearer form pursuant to the exemption afforded by Regulation S promulgated under the Securities Act solely outside of the United States and solely to non-US persons and in specific reliance upon the representations by each Noteholder that (1) at the time of the offer and sale of the Notes to the Noteholder, the Noteholder was not a US Person as defined in Regulation S promulgated under the Securities Act, and (2) at the time of the offer and sale of the Notes to the Noteholder and, as of the date of the execution and delivery of the purchasing or subscription agreement by the Noteholder (if any) or any intermediary, the Noteholder was outside of the United States. The Notes may not be offered or sold in the United States or to US Persons (as defined in Regulation S) unless the Notes are registered under the Securities Act, or an exemption from the registration requirements of the Securities Act is available. The Notes are subject to certain United States tax law requirements.

IMPORTANT – PROHIBITION ON OFFERS IN THE EUROPEAN ECONOMIC AREA AND THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND

The Notes may not be offered, sold or otherwise made available in any Member State of the European Economic Area (“**EEA**”) where the Prospectus Regulation applies or in the United Kingdom of Great Britain and Northern Ireland (“**UK**”).

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any investor in the EEA or in the UK. This prohibition applies regardless of the status of the investor, the minimum denomination of the Notes or the minimum subscription amount of the offer.

IMPORTANT – EEA RETAIL INVESTORS

As detailed above, the Notes may not be offered, sold or otherwise made available to any investor in the EEA regardless of their status. Accordingly, the Notes may not be offered, sold

or otherwise made available to any retail investor within the EEA.

For these purposes, a retail investor means a person who is one (or more) of:

- a) a "retail client" as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended ("**MiFID II**"); or
- b) a customer within the meaning of Directive (EU) 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II.

Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS

As detailed above, the Notes may not be offered, sold or otherwise made available to any investor in the UK regardless of their status. Accordingly, the Notes may not be offered, sold or otherwise made available to any retail investor within the UK.

For these purposes, a retail investor means a person who is one (or more) of:

- a) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or
- b) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA.

Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation.

In this Series Memorandum any reference to any EU directive, EU regulation, EU decision, EU tertiary legislation or provision of the EEA agreement (an "**EU Matter**") which forms part of UK domestic law by application of the EUWA shall be read as including a reference to that EU Matter as it forms (by virtue of the EUWA) part of UK domestic law and as modified by UK domestic law from time to time. For the purposes of this paragraph, (i) "domestic law" shall have the meaning given in the EUWA; and (ii) any other words and expressions shall, unless the context otherwise provides, have the meanings given in the EUWA.

The Notes are illiquid investments, the purchase of which involves substantial risks. Any investor investing in the Notes should fully consider, understand and appreciate those risks.

Public Offering

No action has been taken in any jurisdiction that would permit a public offering of any of the

Notes, or possession or distribution of the Programme Memorandum, this Series Memorandum or any part thereof or any other offering material, in any country or jurisdiction where action for that purpose is required.

NO OFFER, SALE OR DELIVERY OF THE NOTES, OR DISTRIBUTION OR PUBLICATION OF ANY OFFERING MATERIAL RELATING TO THE NOTES, MAY BE MADE IN OR FROM ANY JURISDICTION EXCEPT IN CIRCUMSTANCES WHICH WILL RESULT IN COMPLIANCE WITH ANY APPLICABLE LAWS AND REGULATIONS. ANY OFFER OR SALE OF THE NOTES SHALL COMPLY WITH THE SELLING RESTRICTIONS AS SET OUT IN THIS SERIES MEMORANDUM AND THE PROGRAMME MEMORANDUM AND ALL APPLICABLE LAWS AND REGULATIONS.

Purchasers of Notes should conduct such independent investigation and analysis regarding the Issuer, the Portfolio Manager, the Charged Assets and the Notes as they deem appropriate to evaluate the merits and risks of an investment in the Notes, as the Notes described in this Series Memorandum may not be suitable for all purchasers of Notes. Purchasers of Notes should have sufficient knowledge and experience in financial, taxation, accounting, capital treatment and business matters, and access to, and knowledge of, appropriate analytical resources, to evaluate the information contained in this Series Memorandum and the Programme Memorandum and the merits and risks of investing in the Notes in the context of their financial and regulatory position and circumstances. This Series Memorandum and the Programme Memorandum do not describe all of the risks and investment considerations applicable to an investment in the Notes. The risks and investment considerations identified in this Series Memorandum and the Programme Memorandum are provided as general information only and the Issuer disclaims any responsibility to advise purchasers of Notes of the risks and investment considerations associated with the purchase of the Notes as they may exist at the date hereof or as they may from time to time alter.

PARTICULAR ATTENTION IS DRAWN TO THE SECTION OF THIS SERIES MEMORANDUM HEADED “RISK FACTORS”.

INVESTOR ACKNOWLEDGEMENTS, CONFIRMATIONS, REPRESENTATIONS AND UNDERTAKINGS

Persons acquiring the Notes will be deemed to provide the confirmations, representations, acknowledgements and undertakings to the Issuer as set out below. In particular, they should ensure that they are satisfied with the terms of the acknowledgements, confirmations, representations and undertakings which they will be deemed to have provided by purchasing the Notes.

Product Information

Full information on the Issuer, the ETPCAP Programme and the Notes is only available on the basis of the combination of the provisions set out in the Programme Memorandum and this Series Memorandum.

Investor Confirmation and Representation

Each investor acquiring the Notes shall be deemed to have confirmed and represented to the Issuer that:

1. they have the knowledge and experience in financial and business matters necessary to enable them to evaluate the information contained in the Programme Memorandum and the Series Memorandum and the merits and risks of an investment in the Notes in the context of their own financial circumstances and investment objectives;
2. they have conducted such independent investigation and analysis regarding the Issuer, the ETPCAP Programme, the Charged Assets and the Notes and such market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in the Notes;

Selling Restrictions

There are restrictions on the offer or sale of Notes and on the distribution of the offering materials (including the Programme Memorandum and this Series Memorandum) (the “**Selling Restrictions**”). See further the section of the Programme Memorandum entitled “Subscription and Sale” and the section in this Series Memorandum entitled “Issuance Process and Selling Restrictions”.

Purchasers should be aware that the Back Office Agent does not conduct any due diligence on, nor establish the suitability requirements of any investors in the Notes.

Investor Acknowledgement, Confirmation, Representation and Undertaking

Each investor acquiring the Notes shall be deemed to have acknowledged, confirmed, represented, and undertaken to the Issuer that:

1. they are a person by whom the Notes may be lawfully purchased in accordance with the Selling Restrictions and the laws of the jurisdiction in which they are located;
2. they will comply with the Selling Restrictions and all laws, rules, regulations and directives in any jurisdiction in which they sell the Notes;
3. the Notes have not been and will not be registered under the United States Securities Act of 1933 (the “**Securities Act**”) and may not be offered or sold within the United States or to or for the account or benefit of a U.S. person as defined in Regulation S (under the Securities Act (“**Regulation S**”));
4. the Notes may be not offered, sold or otherwise made available to any investor otherwise than in compliance with the Selling Restrictions;
5. the Notes may not be offered, sold or otherwise made available in any Member State

of the European Economic Area (“**EEA**”) or in the United Kingdom of Great Britain and Northern Ireland (“**UK**”) and should not be offered, sold or otherwise made available to any investor in the EEA or in the UK. This prohibition applies regardless of the status of the investor, the minimum denomination of the Notes or the minimum subscription amount of the offer;

6. as detailed above, the Notes may not be offered, sold or otherwise made available to any investor in the EEA or in the UK regardless of their status. Accordingly, Notes may not be offered, sold or otherwise made available to any retail investor in the EEA or the UK. For these purposes, a retail investor means a person who is one (or more) of:
 - (a) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU, as amended (“**MIFID II**”);
 - (b) a customer within the meaning of Directive (EU) 2016/97 where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (c) not a qualified investor as defined in the Prospectus Regulation.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as amended (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation; and

7. no action has been taken in any jurisdiction that would permit a public offering of any Notes, or possession or distribution of the Programme Memorandum and or the Series Memorandum or any other offering material, in any country or jurisdiction where action for that purpose is required.

the Back Office Agent.

3 RISK FACTORS

3.1 General

The purchase of the Notes involves substantial risks. Each prospective purchaser of the Notes should be familiar with instruments having characteristics similar to the Notes and should fully understand the terms of the Notes and the nature and extent of its exposure to risk of loss.

The Programme Memorandum also contains further paragraphs headed “Risk Factors” and they should be considered by prospective investors in conjunction with the risk factors set out below before making any investment decisions with respect to the Notes.

Before making an investment decision prospective purchasers of the Notes should conduct such independent investigation and analysis regarding the Issuer, the Portfolio Manager, the Charged Assets, the Notes and all other relevant persons and such market and economic factors as they deem appropriate to evaluate the merits and risks of an investment in the Notes. As part of such independent investigation and analysis, prospective purchasers of Notes should consider carefully all the information set forth in this Series Memorandum and in the Programme Memorandum and the considerations set out below.

Investment in the Notes is only suitable for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the information contained in this Series Memorandum and in the Programme Memorandum and the merits and risks of an investment in the Notes in the context of the investor’s own financial circumstances and investment objectives.

Investment in the Notes (or a participation therein) is only suitable for investors who:

1. are capable of bearing the economic risk of an investment in the Notes (or a participation therein) for a period up to and until the redemption of the Notes;
2. are acquiring an interest in the Notes (or a participation therein) for their own account for investment, not with a view to resale, distribution or other disposition of such interest (subject to any applicable law requiring that the disposition of the investor’s property be within its control); and
3. recognise that it may not be possible to make any transfer of the Notes (or a participation therein) for a substantial period of time, if at all.

Each of the Issuer and the Programme Coordinator may, in its discretion, disregard interest shown by a prospective investor even though that investor satisfies the foregoing suitability standards.

Each prospective investor should ensure that it fully understands the nature of the transaction into which it is entering and the nature and extent of its exposure to the risk of loss of all or a substantial part of its investment. Attention is drawn, in particular, to the Conditions in the Master Conditions (November 2018 Edition) entitled ‘Security’ and ‘Enforcement and Limited Recourse’ and the sections in this Series Memorandum entitled ‘Information relating to the Portfolio Manager and the Portfolio Management Agreement’ and ‘Information relating to the Charged Assets’.

3.2 Risks relating to the Issuer and Transaction Participants

Special purpose company

The Issuer is a special purpose company and has been established for the purpose of issuing multiple Series of secured notes under the ETPCAP Programme. The Issuer has issued share capital only in the amount of EUR 1 (one euro). Should any unforeseen expenses or liabilities (which have not been provided for) arise, the Issuer may be unable to meet them, leading to an Event of Default under the Notes.

There is no certainty that Noteholders will recover any amounts payable under the Notes. Due to the limited recourse nature of the Notes (see 'Limited recourse' below), claims in respect of the Notes are limited to the proceeds of enforcement of the Mortgaged Property subject to the prior security interests of the Custodian and Securities Account Provider and after the deduction of any applicable expenses. In addition, if a claim is brought against the Issuer (whether under statute, common law or otherwise) which is not subject to such contractual limited recourse provisions, the only assets available to meet such claim would be the proceeds of the issuance of the Issuer's ordinary shares and any profits of the Issuer generated by its participation in the ETPCAP Programme to the extent any remain as at the date of such claim and are available to meet such claim. Prospective investors should note that the Issuer is not expected to retain any significant profits from its participation in the ETPCAP Programme. The only other assets of the Issuer will be the assets on which each Series of secured notes under the ETPCAP Programme is secured, which will be subject to the prior security interests of the relevant Noteholders and any other secured parties under that Series and the prior security interests of the Securities Account Provider.

Limited recourse

The Notes will be limited recourse obligations of the Issuer secured on the Mortgaged Property (being principally comprised of the Charged Assets) and are not or will not (as the case may be) be obligations or responsibilities of, or guaranteed by, any other person or entity. **For the avoidance of doubt, none of the Trustee, the Programme Coordinator, the Portfolio Manager, any Agent appointed by the Issuer or any other person has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes. There is no person that guarantees to Noteholders that they will recover any amounts payable under the Notes.**

The ability of the Issuer to meet its obligations in respect of the Notes will be dependent on the receipt by the Issuer of moneys due to it under the Mortgaged Property (including the Charged Assets comprised therein). The Noteholders shall have no recourse to the Issuer beyond the moneys derived by or on behalf of the Issuer in respect of the Charged Assets. To the extent that investment by the Issuer in the Charged Assets held by the Issuer results in such investment being less than the obligations of the Issuer under the Notes, the Issuer will have insufficient funds available to meet its obligations in respect of the Notes. In such event, any shortfall would be borne by the Noteholders in accordance with the priorities specified in the Conditions. See 'Nature of the investment' below.

For the avoidance of doubt, Notes are not, and do not represent or convey any interest in the Charged Assets nor do they confer on the Noteholder any right (whether in respect of voting, dividend or other distribution) which a holder of any Charged Assets may have had. The Issuer is not an agent of the Noteholder for any purpose.

Liability for the obligations of other Series

The Issuer has undertaken not to incur any obligations with respect to any other Series of notes issued under the ETPCAP Programme unless recourse in respect of such obligations is limited to the proceeds of enforcement of the security over the assets of the Issuer on which

such obligations are secured (which assets shall exclude the Mortgaged Property securing any other Series). Nevertheless, to the extent there are any creditors with respect to a Series of notes whose recourse is not so limited Noteholders may be exposed to risks incurred for the account of other Series.

Regulatory Status of the Portfolio Manager

The Portfolio Manager has represented to the Issuer that all governmental, regulatory and other registrations, authorisations, permissions, consents and qualifications, if any, that are required to have been obtained by it in all relevant jurisdictions, including without limitation, the jurisdiction of its incorporation and the jurisdiction of incorporation of the Issuer, in order to render the services for which it has been appointed, have been obtained and are in full force and effect and all conditions of any such registrations, authorisations, permissions, consents and qualifications have been and continue to be complied with. The Portfolio Manager has further represented that it will maintain such registrations, authorisations, permissions, consents and qualifications in full force and effect through the term of its appointment.

The Issuer has relied upon these representations and none of the Issuer, the Programme Coordinator, the Charged Assets Realisation Agent, the Trustee, the Issue Agent and Principal Paying Agent, the Back Office Agent or any other Agent nor any affiliate of any of them or other person on their behalf has made any independent investigation of or verified the regulatory status of the Portfolio Manager or the adequacy of its registrations, authorisations, permissions, consents and qualifications, if any.

Prospective Noteholders should review the regulatory status of the Portfolio Manager to evaluate how this could impact on the performance of the Notes for their investment requirements and to ensure that they are willing to entrust the management of the Charged Assets to such entity.

Furthermore, if the representations given by the Portfolio Manager are or were to become incorrect and it was determined by any governmental, regulatory or other official authority that the Portfolio Manager did not hold any necessary registration, authorisation, permission, consent or qualifications to render the services for it is appointed, its appointment would be terminated. In such an event the Issuer would attempt to appoint a replacement entity to act as Portfolio Manager. However, there can be no assurance that it would be possible to appoint a replacement and if no replacement is appointed within ninety (90) calendar days the Notes shall become subject to a mandatory redemption. To facilitate such a redemption, it would be necessary to realise the Charged Assets which could result in a loss to Noteholders if the market conditions at the time of such realisation are unfavourable.

3.3 Risks relating to the Notes

Nature of the investment

These Notes are not principal protected and are a high-risk investment in the form of a debt instrument. The Noteholders are neither assured of repayment of the capital invested nor are they assured of payment of a stated rate of interest or of any interest at all. The Notes give Noteholders exposure to the Charged Assets, being comprised principally of the Issuer's rights in respect of certain securities and other financial assets that the Issuer may invest in acting through the Portfolio Manager, see 'Investment in Securities by the Portfolio Manager' below.

Any payments to be made on the Notes depend on the amounts received by the Issuer in respect of the Charged Assets. Should the Charged Assets decrease in value, Noteholders will incur a partial or total loss of their investment. Even if the Charged Assets increase in value, Noteholders may incur a partial or total loss of their investment to the extent that the

appreciation of the Charged Assets is not sufficient to account for fees, costs and expenses of the Issuer.

In certain circumstances, described in the Conditions of the Notes, the Notes will be redeemed early pursuant to a Mandatory Redemption Event (including an Additional Mandatory Redemption Event), an Optional Redemption or following an Event of Default and Noteholders shall be entitled to receive only such amount as is available following the sale, redemption or other means of realisation of the Charged Assets, subject to the provisions of the Notes described under 'Limited recourse' above.

In general, redemption payments to be made on the Notes are calculated with reference to the value of the proceeds of the Charged Assets. However, if and to the extent that the amount payable by the Issuer in accordance with the Notes to the Noteholders is greater than the amount received by the Issuer in respect of the redemption of the Charged Assets, each Noteholder shall be entitled to receive only its pro rata share of such amount as is received by the Issuer under the Charged Assets after deduction of any applicable costs and expenses.

Change of law, tax and administrative practice

The structure of the transaction and, inter alia, the issue of the Notes are based on legal, tax and administrative practice in effect at the date hereof, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given that legal, tax or administrative practice will not change after the Issue Date or that such change will not adversely impact the structure of the transaction and the treatment of the Notes.

Fees

In addition to the fees due to the Trustee and any Agents, and any other transaction related fees incurred by the Issuer in respect of the issuance of the Notes, the amounts payable under the Notes are based on the performance of the Charged Assets after deduction of certain fees, which is further described in Special Condition 5.8 (Fees) of the Notes. The fees will be applied in calculating the value of the Portfolio and therefore will result in a reduction in the value of the Notes.

In connection with the offer and sale of the Notes, the Programme Coordinator or any of its associated companies may, directly or indirectly, pay fees in varying amounts to third parties or, as the case may be, receive fees (including but not limited to distribution fees, rebates and retrocessions) in varying amounts, including, from third parties (which may include any Transaction Participants as defined below). Each Noteholder acknowledges that the Programme Coordinator or any of its associated companies may retain all or part of such fees.

Foreign exchange risk

The Notes are denominated in United States Dollars. The Charged Assets may however be denominated in US dollars, euro, or any other currencies. The Issuer will effect foreign exchange transactions to convert amounts received in respect of the Charged Assets into United States Dollars. in order to meet its payment obligations under the Notes. In order to mitigate the foreign exchange risk the Portfolio Manager may on behalf of the Issuer enter into foreign exchange hedging transactions with such banks and other providers of treasury products ("**Derivatives Counterparties**") as may in the sole discretion of the Issuer or the Portfolio Manager be appropriate given the Charged Assets and the obligations of the Issuer under the Notes. Accordingly, the Issuer and the Noteholders may be exposed to credit risk of such Derivatives Counterparties providing foreign exchange hedging to the Issuer.

Optional Redemption by the Issuer

Investors in the Notes should be aware that the Issuer has the option at any time to redeem the Notes either in whole or in part, subject to the notice requirements set out in the Conditions. Such notice may only be revoked by the Issuer with the consent of the Trustee in accordance with the Conditions. In the case of a redemption of the Notes in whole, they shall be redeemed at their Early Redemption Amount and in case of a redemption of the Notes in part, they shall be redeemed by payment of a portion of the principal amount outstanding of each Note as specified in a notice by the Issuer.

Purchase by Issuer

Investors in the Notes should be aware that while the Issuer intends to offer weekly liquidity in the Notes by offering to purchase Notes from Noteholders at any time prior to the Maturity Date or Extended Maturity Date, the Conditions of the Notes provide that any such purchase shall be at the discretion of the Issuer or Back Office Agent and shall be subject to there being sufficient liquidity in the Charged Assets (as determined by the Calculation Agent) to fund such repurchase, as further described in Special Condition 5.5.3 (*Purchase*). Accordingly, the Notes should only be acquired by investors who are willing to hold their Notes until the Maturity Date or Extended Maturity Date, as the case may be.

Restrictions on Transfer

The Notes are subject to restrictions on transfer, as described in the 'Subscription and Sale' section of the Programme Memorandum and 'Issuance Process and Selling Restrictions' section of this Series Memorandum. In particular, the Notes have not been registered under the Securities Act, under any US state securities or 'Blue Sky' laws or under the securities laws of any other jurisdiction and are being issued and sold in reliance upon exemptions from registration provided by such laws. No Note may be sold, assigned, participated, pledged or transferred unless such sale, assignment, participation, pledge or transfer (a) is exempt from the registration requirements of the Securities Act (for example, the exemption provided by Rule 144A under the Securities Act or the exemption provided by Regulation S under the Securities Act and applicable state securities laws) and (b) is in compliance with the transfer restrictions and certification requirements described in the 'Subscription and Sale' section of the Programme Memorandum and the 'Issuance Process and Selling Restrictions' section of this Series Memorandum.

Programme Coordinator default

The Notes will be redeemed if the Programme Coordinator is dissolved or becomes unable to perform its obligations in relation to the Notes unless a substitute programme coordinator is appointed by the Issuer within ninety (90) days of such event.

Payments

Payments under the Notes will only be made after receipt of the Sale Proceeds by the Issuer. The date of payment of the redemption amount under the Notes is therefore not fixed. Payment of redemption amounts under the Notes depends on the realisation or liquidation of the Charged Assets. It may take a considerable period of time to redeem the Charged Assets, in particular in the case of a redemption pursuant to an Early Redemption. Noteholders may only receive payment of the relevant redemption amount under the Notes significantly later than the specified redemption date of the Notes.

Liquidity

No secondary market for the Notes currently exists or is expected to develop. Furthermore, it may not be possible for investors to have their Notes purchased by the Issuer prior to the Maturity Date or Extended Maturity Date, as the case may be (see further the risk factor entitled "Purchase by Issuer" above). Prospective purchasers of the Notes should therefore recognise that they may not be able to liquidate their investment in the Notes. Investment in the Notes is therefore only suitable for investors who are capable of bearing the economic risk of an investment in the Notes for an indefinite period of time and are not acquiring the Notes with a view to a potential resale, distribution or other disposition at some future date.

Application has been made to list the Notes on the Vienna MTF of the Vienna Stock Exchange. Listing is expected to take place on or about the Issue Date but no assurance can be given that such application will be granted. Even if the Notes are listed, it is not anticipated that a secondary trading market or liquidity will develop.

Extended Maturity Date

The term of the Notes may be extended for further periods of up to ten (10) years, provided that, at the request of the Issuer, the Calculation Agent, on behalf of the Issuer, has given a notice (the "**Extension Notice**") to the Trustee, the Principal Paying Agent and the Noteholders not less than one (1) calendar month prior to the Maturity Date or the Extended Maturity Date if applicable, stating that such extension shall take place in respect of the Notes. If no Extension Notice, or no further Extension Notices (if applicable) are delivered by the Calculation Agent, the Notes shall be redeemed on the Maturity Date or on the date stated in the final Extension Notice (such date being the "**Extended Maturity Date**").

Market and legal risk

The Notes will constitute secured, limited recourse obligations of the Issuer, recourse in respect of which will, in effect, be limited to the proceeds of the Mortgaged Property (which principally comprises the Charged Assets) relating to the Notes and no other assets of the Issuer will be available to satisfy claims of Noteholders. The Issuer's obligations to the Noteholders are solely funded by, and primarily secured on, the Charged Assets. Therefore, to the extent that the value of the Charged Assets falls, payment under the Charged Assets is not made, the Charged Assets cannot be sold or if the relevant security arrangements would not be enforceable, a loss of principal or interest or both under the Notes will result. Noteholders therefore assume the market and legal risk of the Charged Assets.

None of the Transaction Participants (as defined below but excluding the Portfolio Manager) nor any affiliate of any of them or other person on their behalf has made any investigation of, or makes any representation or warranty, express or implied, as to the standing or suitability of the Portfolio Manager or the financial or other condition of the Charged Assets.

None of the Issuer, the Programme Coordinator, the Trustee, the Principal Paying Agent, the Charged Assets Realisation Agent, the Calculation Agent, the Back Office Agent, the Broker Dealer of Record, the Portfolio Manager or any other Agent (together, the "**Transaction Participants**") nor any affiliate of any of them (or any person on their behalf) assume any responsibility vis-à-vis the Noteholders for the economic success or lack of success of an investment in the Notes, or the performance, the value or terms of the Charged Assets. No Transaction Participant will have any responsibility or duty to make any such investigations, to keep any such matters under review, to provide the Noteholders, or prospective purchasers of the Notes, with any information in relation to such matters or to advise as to the attendant risks.

Independent review and advice

Each prospective purchaser of Notes must determine, based on its own independent review and such legal, financial and tax advice as it deems appropriate under the circumstances, that its acquisition of the Notes (i) is fully consistent with its financial needs, objectives and condition, (ii) complies and is fully consistent with all investment policies, guidelines, authorisations and restrictions (including as to its capacity) applicable to it, (iii) has been duly approved in accordance with all applicable laws and procedures and (iv) is a fit, proper and suitable investment for it, undertaken for a proper purpose.

Legality of purchase

None of the Transaction Participants or any affiliate of any of them or other person on their behalf has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective purchaser of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective purchaser with any law, regulation or regulatory policy applicable to it.

No reliance

The Transaction Participants and all affiliates of any of them disclaim any responsibility to advise purchasers of the Notes of the risks and investment considerations associated with the purchase of the Notes as they may exist at the date hereof or from time to time hereafter.

No restrictions on activities

Any of the Transaction Participants and any affiliate of any of them or other person on their behalf may have existing or future business relationships (including depository, lending, advisory or any other kind of commercial or investment banking activities or other business) with any of the other Transaction Participants and any affiliate of any of them or other person on their behalf and may purchase, sell or otherwise deal in any assets or obligations of, or relating to, any such party. Any of the Transaction Participants and any affiliate of any of them or other person on their behalf may act with respect to any such business, assets or obligations without regard to any possible consequences for the Issuer, the Notes or any Noteholder (or the impact of any such dealing on the interests of any Noteholder) or otherwise.

Provision of information

Any of the Transaction Participants or any affiliate of any of them or any other person acting on their behalf may at the date hereof or at any time hereafter be in possession of information in relation to the other Transaction Participants or any affiliate of any of them or any other person acting on their behalf or on behalf of the Charged Assets (which may or may not be publicly available or confidential). None of such persons shall be under any obligation to make any such information available to Noteholders or any other party other than as provided in the Conditions of the Notes.

Taxation

Each Noteholder will assume and be solely responsible for any and all taxes of any jurisdiction or governmental or regulatory authority, including, without limitation, any state or local taxes or other like assessment or charges that may be applicable to any payment to it in respect of the Notes. Neither the Issuer nor any other person will pay any additional amounts to the Noteholders to reimburse them for any tax, assessment or charge required to be withheld or deducted from payments in respect of the Notes by the Issuer or by the Principal Paying Agent (or any other Paying Agent).

The Notes will not be treated as subject to 871(m) of the US Internal Revenue Code of 1986

as amended.

Legal opinions

No legal opinions will be obtained with respect to any applicable laws, including the laws applicable to the Portfolio Manager, the laws governing the Charged Assets or as to the validity, enforceability or binding nature of the Charged Assets.

Conflict of interests

Any of the Transaction Participants or any affiliate of any of them or any other person acting on their behalf may from time to time, as principal or agent, have positions in, or may buy or sell, or make a market in any securities (including shares in a Transaction Participant), currencies, financial instruments or other assets owned by a Transaction Participant. Any trading and / or hedging activities of Transaction Participants or any affiliate of any of them or any other person acting on their behalf related to this transaction may have an impact on the price of the underlying assets.

Clearing Systems

The Notes will be represented by one or more Temporary Global Notes and Permanent Global Notes. Such Global Notes will be deposited with a common depository for Euroclear and Clearstream, Luxembourg. Except in the limited circumstances described in the relevant Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are represented by one or more Global Notes the Issuer will discharge its payment obligations under the Notes by making payments through the Principal Paying Agent to the common depository for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

Limitations of the ability to grant security over Notes while in global form

Because transactions in the Notes will be effected only through Euroclear or Clearstream, Luxembourg, direct or indirect participants in their respective book-entry-systems and certain banks, the ability of a Noteholder to pledge such interest to persons or entities that do not participate in the Euroclear or Clearstream systems, or otherwise to take actions in respect of such interests, may be limited due to the lack of physical security representing such interest.

Investors may acquire less than the Principal Amount of the Notes Issued

Investors should be aware that upon their issuance, the Notes will initially be transferred to an account of the Issuer with The Bank of New York Mellon, London Branch where they will be held until their acquisition by investors or until they are cancelled. The Notes may be held in the account of the Issuer for significant periods of time before being acquired by investors. In addition, the Issuer may elect to cancel any Notes which have not been acquired by investors.

The principal amount of Notes specified in this Series Memorandum represents the amount of Notes that will be issued on the Issue Date. There is no minimum limit on the number of Notes that must be acquired by investors. Investors should therefore be aware that some Notes which are issued on the Issue Date may not be acquired by investors and it may be the case that investors only acquire a small portion of the Notes issued on the Issue Date. Investors should further be aware that while any holding of Notes they acquire may represent a particular portion of Notes issued on the Issue Date, their holding may ultimately represent a larger portion of Notes actually acquired by investors. Investors should also be aware that, as a consequence of the above, the amount invested by the Issuer in the Charged Assets may be significantly less than the principal amount of Notes issued on the Issue Date.

3.4 Risks relating to the Charged Assets

3.4.1 Securities Account and IB Master Account

The IB Master Account is a margin account held by the Issuer with the Securities Account Provider and may hold cash and other assets relating to one or more Series, including this Series. No trading will be carried out by the Portfolio Manager from this account, although such account may hold fully paid securities.

The Securities Account is a sub-account of the IB Master Account. It is a margin account that may be used to invest in securities or other products on margin which involves the extension of credit to the Issuer from the Securities Account Provider. As a result, the Issuer's financial exposure could exceed the value of securities or other products in the Securities Account. Any such credit will accrue interest at the agreed rates.

The Securities Account Provider may, whenever it deems it desirable or for the Securities Account Provider's protection, sell any or all securities or related contracts in (i) the Securities Account or (ii) the IB Master Account, or buy any securities or related contracts relating thereto, in order to close out in whole or in part any obligations of the Issuer pursuant to the Securities Account Agreement or the IB Master Securities Account Agreement, respectively. Therefore, Securities or other Related Rights that the Issuer may hold in the Securities Account or IB Master Account may be sold or bought at sub-optimal prices or times that are ill-suited to such trades being executed, and the value of the Notes may be adversely affected.

In return for the Securities Account Provider agreeing to the extension or maintenance of credit in connection with the Securities Account or IB Master Account, the Issuer has agreed that the securities in the Securities Account or IB Master Account, together with all attendant rights of ownership, may be the subject of securities lending transactions, whether to the Securities Account Provider or by the Securities Account Provider to third parties. In connection with such securities lending transactions, the Securities Account Provider may receive and retain certain benefits to which the Issuer will not be entitled.

Further, there is a risk that substitute payments that the Issuer may be entitled to as a result of such securities loans may not be afforded the same tax treatment as actual interest, dividends and / or other distributions, that the Issuer may have been entitled to but for such securities loans, and the Issuer may incur additional tax liability for substitute payments that it receives. The Issuer would not be entitled to any compensation in connection with securities lent from the Securities Account or IB Master Account or for additional taxes the Issuer may be required to pay as a result of any tax treatment differential between substitute payments and actual interest, dividends, and / or other distributions.

3.4.2 Lien

Charged Assets held in the Securities Account and IB Master Account are subject

to (i) a lien retained by the Securities Account Provider; and (ii) the security interests created pursuant to the Securities Account Agreement or IB Master Securities Account Agreement over the assets held in the Securities Account, that supersede any security interests created by either the Trust Deed or the Charging Instrument. The Securities Account Provider takes such security interests as security for its fees, credit, costs and expenses pursuant to the Securities Account Agreement and IB Master Securities Account Agreement, as well as all its reasonable costs and expenses incurred in the collection of any debit balance or unpaid deficiency in the Securities Account.

3.4.3 Custody Account

The Charged Assets that are held in the Custody Account are subject to a lien and right of set-off retained by the Custodian over the assets held in the Custody Account, which in each case are subject to the priority of any security interests created by the Trust Deed or Charging Instrument in favour of the Trustee. The Custodian takes such lien and set off rights as security for any liabilities or obligations that the Issuer may have to the Custodian under the Custody Account Agreement. The Issuer has agreed to pay the Custodian a fee to provide specified services under the Custody Account Agreement and the value of the Notes will be reduced by such fees and other charges incurred by the Issuer.

The Custody Account is provided to the Issuer by The Bank of New York Mellon, London branch (the “**Custodian**”). As the ability of the Issuer to make payments under the Notes is contingent on the performance of the Portfolio held in the Custody Account, the interests of the Noteholders may be negatively affected by an insolvency or winding up of the Custodian or should any administrative or regulatory sanctions be imposed on the Custodian. See further ‘*Description of the Custody Account*’.

Noteholders should be aware that the Custodian may, pursuant to the Custody Account Agreement, hold Charged Assets with sub-custodians selected by it (and not subject to prior approval of the Issuer or Trustee). Therefore, the Noteholders may be negatively affected by an insolvency or winding up of any sub-custodian holding Charged Assets, or should any administrative or regulatory sanctions be imposed on any relevant sub-custodian. The liability of the Custodian for Charged Assets held by certain sub-custodians may be lower than its liability were it to hold the Charged Assets directly.

The Charged Assets may be held by the Custodian (or sub-custodian) in omnibus accounts such that the Charged Assets are not segregated from other assets held in such accounts. In the case of any shortfall of securities held in such accounts (i.e., there are not enough securities to meet the claims of all custody clients) the Issuer (and therefore Noteholders) may be negatively affected by such shortfall.

Investors should also review Special Condition 8.1.2 (Custody Account), 8.1.3 (Investment in the Custody Account), Special Condition 8.1.5 (Securities Account and IB Master Account) and Special Condition 8.1.6 (Investment in the Securities Account) for further information on the Custody Account, Securities Account and IB Master Account and associated risks.

3.4.4 Short Sales

By investing in the Notes, an investor should consider that the return on such an investment depends on the success of the Portfolio Manager in managing the Securities Account and the Custody Account. As referenced herein, the Portfolio Manager is allowed to conduct short sales.

A short sale is a sale of a security which one does not own, in other words a security that one

has borrowed, with the expectation that the security will underperform the market. Short sales involve leverage because one borrows securities and then sells them, effectively leveraging one's assets. The use of leverage may increase market exposure, magnify investment risks, and cause losses to be realized more quickly. Assets segregated to cover these short sale transactions may decline in value, and also are not available to meet redemptions (other than on the Final Maturity Payment Date).

To establish a short sale, the Portfolio Manager would instruct the Securities Account Provider to borrow a security for the account of the Securities Account and to instruct a sale of that security. To close out a short sale transaction, the Portfolio Manager would instruct the Securities Account Provider to buy the same security at a later date and to return it to the person who lent the security to establish the trade.

The Portfolio would profit if the market price of the security declines after the short sale, but would lose value if the market price of that security goes up. The overall benefit to the Portfolio will depend on (i) how the short sale performs, relative to (ii) the market price of securities that are purchased with the sale proceeds of the short sale. For example, if the market price of the securities that the Portfolio Manager purchased in (ii) goes up more than the market price of the security sold short in (i), the Portfolio will benefit. Conversely, the Portfolio will not benefit if the market price of the securities purchased in (ii) goes down more than the market price of securities sold short in (i), even if the short sale itself led to a profit.

Short sales create a risk that the Portfolio will be required to close the short position by buying the security at a time when the security has appreciated in value, thus resulting in a loss to the Portfolio. It is possible that the market value of the securities held in the Portfolio in long positions will decline at the same time that the market value of the securities the Portfolio Manager has sold short increases, thereby increasing the Portfolio's potential volatility.

A short position in a security poses more risk than holding the same security long, as a result of the effect of leverage. Because a short position loses value as the security's price increases, the loss on a short sale is theoretically unlimited. The loss on a long position is limited to what the Portfolio originally paid for the security together with any transaction costs.

The Portfolio Manager may not always be able to borrow a security the Portfolio Manager seeks to sell short at a particular time or at an acceptable price. As a result, the Portfolio Manager may be unable to fully implement its investment strategy due to a lack of available securities or for other reasons.

The Issuer will incur transaction costs, including interest expenses, in connection with opening, maintaining, and closing short sales. Regulatory bans on certain short selling activities may prevent the Portfolio Manager from fully implementing its strategy and the Portfolio Manager will be required to comply with all regulatory requirements.

3.4.5 Compliance by the Portfolio Manager with the Management Criteria, Investment Objective and Portfolio Management Agreement

Investors should be aware that the Portfolio Manager is responsible for ensuring that the investment decisions it makes comply with and are consistent with the Portfolio Management Agreement, the Management Criteria and the Investment Objective. In the event that the Portfolio Manager fails to comply with the Portfolio Management Agreement, the Management Criteria or the Investment Objective, such a failure could result in, amongst other things, Noteholders having exposure to assets which are not permitted by or consistent with the terms of the Management Criteria or the Investment Objective. Such a failure could have a negative impact on the value of the Notes and result in a loss to Noteholders which may not be recoverable from the Portfolio Manager. None of the Transaction Participants other than the

Portfolio Manager are responsible for supervising or monitoring the activities of the Portfolio Manager and so any failure by the Portfolio Manager to comply with the Portfolio Management Agreement, the Management Criteria or the Investment Objective may not be detected in a timely manner and, for the avoidance of doubt, neither the Trustee nor the Issuer shall have any obligation to supervise or monitor the activities of the Portfolio Manager with respect to the composition or trading of the assets held in the Securities Account or Custody Account. Furthermore, none of the Transaction Participants other than the Portfolio Manager shall be responsible for any losses that may be suffered by Noteholders as a result of any failure by the Portfolio Manager to comply with the Portfolio Management Agreement, the Management Criteria or the Investment Objective. Potential investors should only acquire Notes if they are willing assume the risk associated with the Portfolio Manager failing to comply with the Portfolio Management Agreement, the Management Criteria and the Investment Objective.

3.4.6 Investment in Securities by the Portfolio Manager

The Portfolio Manager may invest in Securities that meet the Management Criteria. The Management Criteria are very wide and allow the Portfolio Manager a wide discretion in selecting the Securities that it wishes to invest in.

Potential investors should be aware that an investment in Securities involves a high degree of risk. Typically, the success of any investment in Securities depends on the ability of the Portfolio Manager to choose, develop and realise appropriate investments, and there will be no guarantee that the Portfolio Manager will be able to choose, make and realise investments in any particular company or portfolio of companies.

An investor in the Notes should ensure that they have considered the operational history of the Portfolio Manager and whether the Portfolio Manager has a proven track record, to the satisfaction of the investor in the Notes. Subject to the Management Criteria, the Portfolio Manager may invest in less established companies with lower capitalisations, fewer resources and little or no performance record. As the investments in Securities are likely to be minority interests, it cannot be certain that investors' interests will be effectively protected. There can be no assurance that the investments in the Securities will produce gains. Some or all of the investment in any Securities may be lost which could have a negative impact on the value of the Notes.

The Portfolio Manager's investments may be exposed, directly or indirectly, to the performance of companies which may be highly leveraged and therefore may be more sensitive to adverse business or financial developments or economic factors. Such companies may face intense competition, changing business or economic conditions or other developments that may adversely affect their performance.

The activity of identifying, completing and realising attractive investments is highly competitive, and involves a significant degree of uncertainty. Other investors such as funds and vehicles with similar investment objectives to the Issuer may be formed in the future by other unrelated parties and further consolidation may occur. There is no assurance that the Portfolio Manager will be able to locate, complete and exit investments that satisfy the Investment Objective, or realise the value of such investments, or that it will be able to invest fully the amount committed.

Investments may not be liquidated for a number of years after the initial investment and may require a substantial length of time to liquidate. As a result, there is a risk that the Portfolio Manager may be unable to realise the Investment Objective by sale or other disposition at attractive prices or will otherwise be unable to complete any exit strategy.

In respect of the Custody Account, the Securities Account and the IB Master Account, the

Issuer (and, accordingly, the Noteholders also) is exposed to a fall in the prices of the Securities in the Portfolio.

3.4.7 Security for the Notes

Security over the Custody Account

In respect of the Securities held in the Custody Account, the Issuer will grant security interests over the Custody Account and the Custody Account Agreement pursuant to the English law governed Charging Instrument

Security over the Securities Account

In respect of the Securities held in the Securities Account, which is held with the Securities Account Provider, the Issuer will grant security interests over the Securities Account and the Securities Account Agreement pursuant to the New York law governed supplemental security agreement (relating to the Securities Account) entered into between the Issuer and the Trustee on or about the Issue Date (the “**Securities Account Supplemental Security Agreement**”).

In order to perfect the security interest created by the Securities Account Supplemental Security Agreement the Issuer has entered into, with the Trustee and the Securities Account Provider, the New York law governed Securities Account Control Agreement (relating to the Securities Account) dated 09 April 2020 (the “**Securities Account Control Agreement**”).

On or about the Issue Date the Issuer and the Trustee will deliver to the Securities Account Provider an amendment to the Securities Account Control Agreement (as provided for in the Securities Account Control Agreement) such that this Series will be subject to the Securities Account Control Agreement.

However, these security interests and the security interests created by the Constituting Instrument in favour of the Secured Parties (which includes the Noteholders) are subject to and subordinated to the lien and the security interests held by the Securities Account Provider in respect of Securities held in the Securities Account.

Security over the IB Master Account

In respect of the Securities held in respect of the Notes in the IB Master Account, which is held with the Securities Account Provider, the Issuer has granted security interests over the IB Master Account and the IB Master Securities Account Agreement pursuant to the New York law governed supplemental security agreement (relating to the IB Master Account) entered into between the Issuer and the Trustee on 09 April 2020 (the “**IB Master Account Supplemental Security Agreement**”).

On or about the Issue Date the Issuer and the Trustee will designate this Series as a “Series” for the purposes of the IB Master Account Supplemental Security Agreement (as provided for in the IB Master Account Supplemental Security Agreement) such that this Series will be subject to the IB Master Account Supplemental Security Agreement.

In order to perfect the security interest created by the IB Master Account Supplemental Security Agreement the Issuer has entered into, with the Trustee and the Securities Account Provider, the New York law governed Securities Account Control Agreement (relating to the IB Master Account) on 09 April 2020 (the “**IB Master Account Control Agreement**”).

On or about the Issue Date the Issuer and the Trustee will designate this Series as a “Series” for the purposes of the IB Master Account Control Agreement such that this Series will be

subject to the IB Master Account Control Agreement.

The IB Master Account may hold monies and other assets in respect of more than one Series, as described above. Should the Trustee enforce security over the IB Master Account following the default of this Series, its claim over the IB Master Account would be limited to assets held in the IB Master Account in respect of this Series only and no other Series.

However, these security interests and the security interests created by the Constituting Instrument in favour of the Secured Parties (which includes the Noteholders) are subject to and subordinated to the lien and the security interests held by the Securities Account Provider in respect of Securities and other assets (including cash) held in the IB Master Account.

Security over the BNYM Operating Account and the BNYM Unwind Custody Account

The Issuer has also granted, in respect of the Issuer's obligations to the Trustee for all Series under the ETPCAP Programme, security over the Account Bank Agreement and the BNYM Operating Account (as defined below) held pursuant thereto and the Unwind Account Custody Agreement and the BNYM Unwind Custody Account held pursuant thereto in favour of the Trustee, as security for itself and the Secured Parties, pursuant to the Programme Accounts Security Agreement. Pursuant to a deed of confirmation, the Issuer will confirm to the Trustee that the Programme Accounts Security Agreement charges the Account Bank Agreement and the BNYM Operating Account held pursuant thereto and the Unwind Account Custody Agreement and the BNYM Unwind Custody Account held pursuant thereto in favour of the Trustee in respect of the Issuer's obligations under this Series, provided that were the Trustee to enforce security following the default of this Series, its claim thereover would be limited to assets held in such account in respect of this Series only and no other Series.

Transfer of monies between the accounts & commingling

The subscription proceeds of the Notes shall be transferred from the BNYM Settlement Account into: (i) the IB Master Account prior to being transferred into the Securities Account and/or (ii) the Custody Account. The proceeds of any Redemption Amount or purchase amount payable to the Noteholders shall be transferred from (i) the IB Master Account (following transfer of proceeds from the Securities Account into the IB Master Account) and/or (ii) the Custody Account, prior to being transferred into the BNYM Unwind Custody Account. Any Interest Amounts will be transferred from (i) the IB Master Account (following transfer of such Interest Amount from the Securities Account into the IB Master Account) and (ii) the Custody Account, prior to being transferred into the BNYM Interest Account (as further described in Special Condition 8.1.1 (Description of the Accounts – General)). Monies shall be transferred from the IB Master Account and Custody Account into the BNYM Operating Account for payment of amounts owed to service providers (as further described in Special Condition 5.8 (Fees) and Special Condition 8.1.1 (Description of the Accounts – General)). It is intended that such transfers will happen promptly however this may not always be possible and there may be a delay in respect of such transfers. Such monies held in the BNYM Settlement Account, BNYM Operating Account, BNYM Interest Account or the IB Master Account (as described above) may be temporarily commingled with monies attributable to other series. While the Issuer has granted security over such monies held pursuant to the Account Bank Agreement and Unwind Account Custody Agreement pursuant to both the Constituting Instrument and the Programme Accounts Security Agreement in favour of the Trustee (for itself and the other Secured Parties), Noteholders should note that the commingling of such monies may have a negative effect on the Trustee's ability to enforce security over such monies.

Neither the BNYM Settlement Accounts nor the Settlement Agent Agreement will be subject to the security created by the Issuer pursuant to the Programme Accounts Security

Agreement. Accordingly, Noteholders will be unsecured creditors in respect of any balance standing to the credit of the BNYM Settlement Accounts from time to time and will rank *pari passu* with any other unsecured creditors of the Issuer in respect of such balance. Prospective investors should be aware that if other unsecured creditors were to make a claim in respect of such balance, the amount received by Noteholders may be less than would otherwise have been the case if the BNYM Settlement Accounts were subject to the security granted in favour of the Trustee. In order to minimise this risk, the Issuer will ensure that any cash balance of the BNYM Settlement Accounts is transferred to an account established pursuant to the Account Bank Agreement (which is subject to the security granted by the Issuer to the Trustee pursuant to the Programme Account Security Agreement) on a daily basis so that the cash balance of the BNYM Settlement Accounts at the close of business on each day shall be zero.

Fixed vs floating charges and perfection of the Charging Instrument

Certain of the charges in respect of the Notes are stated to be fixed charges in nature. The essence of a fixed charge is that the person creating the charge does not have liberty to deal with the assets which are the subject matter of the security in the sense of disposing of such assets or expending or appropriating the moneys or claims constituting such assets and accordingly, if and to the extent that such liberty is given to the Issuer or any other party (for example the Portfolio Manager) any such charge may operate as a floating, rather than a fixed, charge.

It should be noted that the Noteholders are reliant on the Issuer and the Programme Coordinator to take all necessary steps to ensure that the Charging Instrument is perfected and enforceable. If (i) one or more steps necessary to effect perfection of the Charging Instrument are not taken, (ii) there are any issues with Issuer's title to the assets the subject of the Charging Instrument, or (iii) there is any restriction on the ability to charge the assets the subject of the Charging Instrument, then the Charging Instrument may not be enforceable in whole or in part. Noteholders should be aware that the Trustee has not investigated any of the above matters and is solely reliant on the Issuer and the Programme Coordinator to take all necessary steps to ensure that the Charging Instrument is valid and enforceable in the manner envisaged over the relevant assets.

Security may be declared invalid

The Issuer will grant security interests in favour of the Trustee for itself and for the benefit of the Noteholders in the Mortgaged Property pursuant to the Trust Deed and the Charging Instrument (as defined below). However, if the security interest of the Trustee in the Mortgaged Property was determined to be invalid or unperfected, Noteholders would be unsecured creditors and would rank on a *pari passu* basis with other unsecured creditors (if any) of the Issuer. Each of the foregoing factors may delay or reduce investors' return on their Notes and investors may suffer a loss (including a total loss) on their investment.

Not a bank deposit

Any investment in the Notes does not have the status of a bank deposit in Ireland and is not within the scope of the deposit protection scheme operated by the Central Bank of Ireland. The Issuer is not regulated by the Central Bank of Ireland by virtue of the issue of the Notes.

3.4.8 Redemption and transfer of the Charged Assets

Realisation of the Charged Assets may in certain circumstances be deferred in accordance with their relevant terms. The period of deferral may be significant. Therefore in certain circumstances, including where the Security for the Notes (and any Further Notes) becomes enforceable, there may be a significant delay in payments under the Notes and / or it may be

impossible to transfer the Charged Assets as a means of realising their value.

3.5 Summary of Principal Underlying Investment Risks

As with any investment, you could lose all or part of your investment in the Notes, and the Notes' performance could trail that of other investments. The Notes are subject to one or more of the principal risks noted below (either directly or through the Issuer's investments in underlying securities), any of which may adversely affect the Notes' Net Asset Value, trading price, yield, total return and ability to meet the Issuer's Investment Objective.

3.5.1 Asset Class Risk

Securities in an underlying portfolio may underperform in comparison to the general securities markets or other asset classes.

3.5.2 Commodity Risk

The value of commodities and commodity-linked derivative instruments typically is based upon the price movements of a physical commodity or an economic variable linked to such price movements. The prices of commodities and commodity-related investments may fluctuate quickly and dramatically and may not correlate to price movements in other asset classes. An active trading market may not exist for certain commodities. Each of these factors and events could have a significant negative impact on the Notes.

3.5.3 Concentration Risk

To the extent that the Notes' underlying investments are concentrated in a particular issuer, region, country, market, industry or asset class, the Notes may be susceptible to loss due to adverse occurrences affecting that issuer, region, country, market, industry or asset class.

3.5.4 Counterparty Risk

The Issuer bears the risk that the counterparty to a derivative or other contract with a third party may default on its obligations or otherwise fail to honour its obligations. If a counterparty defaults on its payment obligations the Issuer will lose money and the value of an investment in the Notes may decrease. In addition, the Issuer may engage in such investment transactions with a limited number of counterparties.

3.5.5 Credit Risk

The financial condition of an issuer of Securities may cause it to default or become unable to pay interest or principal due or otherwise fail to perform. The Issuer cannot collect interest and principal payments on Securities if the issuer defaults. While the Issuer attempts to limit credit exposure in a manner consistent with its Investment Objective, the value of an investment in the Notes may change quickly and without warning in response to issuer defaults and changes in the credit ratings of the Issuer's portfolio investments.

3.5.6 Currency Exchange Rate Risk

The Issuer may invest a relatively large percentage of the proceeds of the Notes in investments denominated in non-US currencies, or in securities that provide exposure to such currencies, currency exchange rates or interest rates denominated in such currencies. Changes in currency exchange rates and the relative value of non-US currencies will affect the value of the Issuer's investment and the value of the Notes. Currency exchange rates can be very volatile and can change quickly and unpredictably. As a result, the value of an

investment in the Notes may change quickly and without warning and you may lose money.

3.5.7 Emerging Markets Risk

Investing in emerging market assets involves certain risks and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include (i) the risk of nationalization or expropriation of assets or confiscatory taxation; (ii) social, economic and political uncertainty including war; (iii) dependence on exports and the corresponding importance of international trade; (iv) price fluctuations, less liquidity and smaller capitalization of securities markets; (v) currency exchange rate fluctuations; (vi) rates of inflation (including hyperinflation); (vii) controls on foreign investment and limitations on repatriation of invested capital and on the Issuer's ability to exchange local currencies for U.S. dollars; (viii) governmental involvement in and control over the economies; (ix) governmental decisions to discontinue support of economic reform programs generally and to impose centrally planned economies; (x) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers; (xi) less extensive regulation of the securities markets; (xii) longer settlement periods for securities transactions in emerging markets; (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and the protection of investors; (xiv) certain considerations regarding the maintenance of portfolio securities and cash with non-U.S. subcustodians and securities depositories; and (xv) overall greater volatility.

3.5.8 Equity Securities Risk

Equity securities or equity-linked derivative instruments are subject to changes in value and their values may be more volatile than other asset classes.

3.5.9 Interest Rate Risk

Interest rate risk is the risk that fixed income securities or fixed income-linked derivative instruments will decline in value because of changes in interest rates and other factors, such as perception of an issuer's creditworthiness.

3.5.10 Investment Risk

As with all investments, an investment in the Notes is subject to investment risk. Noteholders could lose money, including the possible loss of the entire principal amount of an investment, over short or long periods of time.

3.5.11 Issuer-Specific Risk

Issuer-specific events relating to the underlying issuer of Securities, including changes in the financial condition of any such underlying issuer, can have a negative impact on the value of the Notes.

3.5.12 Liquidity Risk

The Issuer may invest in derivatives and other instruments that may be less liquid than other types of investments. The derivatives in which the Issuer invests may not always be liquid. This could have a negative effect on the Issuer's ability to achieve its Investment Objective and may result in losses to holders of the Notes.

3.5.13 Management Risk

The Portfolio is actively managed by the Portfolio Manager using proprietary investment

strategies and processes. There can be no guarantee that these strategies and processes will be successful or that the Portfolio Manager will achieve the Investment Objective. The Portfolio Manager is permitted to exercise discretion in relation to certain matters with respect to the Securities comprised in the Portfolio including voting or making elections in respect of such Securities. The success of the Portfolio Manager in performing its duties and obligations will influence the return payable to Noteholders. Accordingly, investors should conduct their own independent investigation and analysis (either alone or with the help of a financial and / or legal adviser) regarding the Portfolio Manager as they deem appropriate to evaluate the merits and risks of an investment in the Notes.

3.5.14 Market Risk

The trading prices of commodities, currencies, fixed income securities and other instruments fluctuate in response to a variety of factors. The Net Asset Value of the Notes and market price may fluctuate significantly in response to these factors. As a result, an investor could lose money over short or long periods of time.

3.5.15 Market Trading Risk

It is not expected that a secondary market will develop for the Notes. However, if such a market were to develop, a holder of the Notes would face numerous market trading risks, including losses from trading in secondary markets and periods of high volatility. ANY OF THESE FACTORS, AMONG OTHERS, COULD LEAD TO THE NOTES TRADING AT A PREMIUM OR DISCOUNT TO NET ASSET VALUE ON ANY SECONDARY MARKET THAT DEVELOPED.

AS WITH ANY INVESTMENT YOU COULD LOSE ALL OR PART OF YOUR INVESTMENT IN THE NOTES AND THE NOTES' PERFORMANCE COULD TRAIL THAT OF OTHER INVESTMENTS. PROSPECTIVE INVESTORS SHOULD NOT INVEST IN THE NOTES WITHOUT TAKING INDEPENDENT ADVICE ON THE RISKS SET OUT HEREIN.

3.5.16 Portfolio Turnover Risk

The Issuer's strategy may frequently involve buying and selling portfolio securities to rebalance the Portfolio's exposure. Higher portfolio turnover may result in the Issuer paying higher levels of transaction costs. Portfolio turnover risk may cause the performance of the Notes to be less than you expect.

3.5.17 Short Sales Risk

The Issuer may engage in "short sale" transactions. The Notes will lose value if the security or instrument that is the subject of a short sale increases in value. The Issuer also may enter into a short derivative position through a futures contract, swap agreement, structured note, or short positions on currency forwards. If the price of the security or derivative that is the subject of a short sale increases, then the Notes will incur a loss equal to the increase in price from the time that the short sale was entered into plus any premiums and interest paid to a third party in connection with the short sale. Therefore, short sales involve the risk that losses may be exaggerated, potentially losing more money than the actual cost of the investment. Also, there is the risk that the third party to the short sale may fail to honour its contract terms, causing a loss to the holders of the Notes.

3.5.18 Strategy Risk

The Portfolio Manager cannot offer assurances that the Securities allocation model will maximize returns or minimize risk, or be appropriate for every investor seeking a particular

risk profile.

3.5.19 **Volatility Risk**

The Notes are designed to capture the long-term economic benefits of rising or declining market trends. Frequent or significant short-term price movements could adversely impact the performance of the Notes.

3.5.20 **Taxation of the Charged Assets**

To the extent that any tax is payable by the Issuer in respect of the Charged Assets or any distributions received in respect of the Charged Assets, such payments will result in a reduction of the amounts distributable to Noteholders and a corresponding reduction in the value of the Notes. Without limitation to the foregoing, to the extent that any amounts of withholding tax are applied to interest payments or other distributions from the Charged Assets, this would reduce the amount available for distribution by the Issuer in respect of the Notes. Furthermore, the Issuer could be subject to Irish tax on any amounts so withheld which would further reduce the amount available for distribution in respect of the Notes.

Accordingly, investors should conduct their own independent investigation and analysis (either alone or with the help of a financial and / or legal adviser) regarding such matters as they deem appropriate to evaluate the merits and risks of an investment in the Notes.

THE CONSIDERATIONS SET OUT ABOVE ARE NOT, AND ARE NOT INTENDED TO BE, A COMPREHENSIVE LIST OF ALL CONSIDERATIONS RELEVANT TO A DECISION TO PURCHASE OR HOLD ANY NOTES. THE ATTENTION OF INVESTORS IS ALSO DRAWN TO THE SECTIONS HEADED 'RISK FACTORS' IN THE PROGRAMME MEMORANDUM.

Portfolio Management	
Portfolio Manager:	AV Securities Inc.
Portfolio Management Agreement:	<p>The terms and conditions of the appointment of the Portfolio Manager are set out in the Portfolio Management Agreement.</p> <p>The Portfolio Manager shall be obliged to perform its obligations in accordance with the terms of the Portfolio Management Agreement and shall be obliged to use all reasonable endeavours, in the course of carrying out such obligations, to fulfil the Investment Objective by pursuing the Investment Strategy in accordance with the Management Criteria.</p> <p><i>See further “Information relating to the Charged Assets’ and “Information relating to the Portfolio Management Agreement” in the Series Memorandum.</i></p>
Investment Objective:	To generate consistent returns with low volatility through diversified asset allocation.
Investment Strategy	<p>The Portfolio Manager follows a multi-sector diversified approach to generate returns primarily through strategic asset allocation across global equities, fixed income, commodities, and alternative investment markets. Its investment solutions aim to balance investor outcomes by leveraging a combination of active and passive indices, stocks, and bonds using a diverse range of underlying mutual funds, structured notes, and ETFs. While the Portfolio Manager’s strategy encompasses a diversified portfolio across global markets, it recognises the potential opportunities that the US market presents and allocates investments accordingly. It is important to note that the Portfolio Manager’s investment strategy does not involve short selling or leverage (although leverage may be used). Instead, it prioritises a disciplined and conservative approach to asset allocation.</p> <p>The Portfolio Manager has established policy weights for each asset class to guide its asset allocation. These policy weights provide strategic targets for allocating investments within the portfolio. The strategic policy weights are as follows:</p> <ul style="list-style-type: none"> (i) Cash & Equivalents: 5%, with a minimum of 2% and a maximum of 20%. (ii) Fixed Income: 36%, with a minimum of 30% and a maximum of 65%. (iii) Equity: 54%, with a minimum of 30% and a maximum of 65%. (iv) Alternative Investments: 6%, with a

minimum of 0% and a maximum of 20%.

These policy weights seek to ensure the portfolio maintains a diversified mix of asset classes that align with its risk and return objectives. However, within these policy weight ranges, tactical asset allocation may be utilized to take advantage of short-term opportunities or to address specific market conditions.

To mitigate risks and enhance performance, the Portfolio Manager's investment strategy incorporates a rigorous asset selection process based on specific criteria. It employs the following filters to identify suitable investment options:

Assets under Management: requires a minimum threshold of USD300 million for consideration, ensuring that the selected assets have the necessary scale and stability.

Fund Inception: prioritises funds with at least three (3) years of historical performance to evaluate their track record and assess their long-term viability.

Morningstar Rang: selects funds with a minimum of 3 stars, leveraging the Morningstar Rang system as an additional quality measure.

Sharpe Rao: evaluates the risk-adjusted returns of potential options by comparing their Sharpe Ratios to the average of their respective categories. It favours funds with superior ratios, indicating better risk-adjusted performance.

Expense Rao: Cost efficiency is a critical consideration. The Portfolio Manager avoids funds that rank in the top 25% of their category regarding Expense Rao, ensuring that its investments remain cost competitive.

Manager Tenure: The Portfolio Manager prioritises experienced fund managers with a tenure of 3 or more years, recognizing the importance of their expertise and ability to navigate various market conditions.

By incorporating these filters into its asset selection process, the Portfolio Manager strives to ensure that the chosen assets meets its standards regarding size, historical performance, range, risk-adjusted return, cost efficiency, and managerial expertise. This comprehensive approach enables it to construct well-diversified portfolios that balance risk and potential returns, providing investors with a robust

	investment solution tailored to their investment objectives and risk tolerance.
Management Criteria:	<p>When seeking to achieve the Investment Objective through the Investment Strategy the Portfolio Manager will be obliged to comply with Management Criteria, which include investment restrictions, set out in the Portfolio Management Agreement.</p> <p>The obligation to ensure that the Management Criteria have been adhered to will be the sole responsibility of the Portfolio Manager.</p>

- 5.8.9 The Ordinary Fees shall be calculated as an annual fee in an amount equal to 0.35% of the BNYM Net Asset Value. Payment of the Ordinary Fees and the Programme Coordinator Fee

- 5.8.10 Ordinary Fees (other than Uncovered Ordinary Fees, as defined and described below) shall be paid by the Issuer out of the BNYM Operating Account. Increase in Minimums

- 5.8.12 If the Net Asset Value of the Portfolio is less than USD 10,000,000 (ten

million United States Dollars) on the date falling three months after the Issue Date, the Ordinary Fees Monthly Minimum will increase from EUR 400 to EUR 550.

The minimum monthly amounts specified above shall increase on 31 December of each year by an amount equal to the most recently published annual percentage increase (if any) for All Items in the US CPI-U (Consumer Price Index for All Urban Consumers) as at that date.

Uncovered Ordinary Fees

- 5.8.13 Certain Ordinary Fees will not be paid from the BNYM Operating Account or covered by the Programme Coordinator in the manner described above (the “**Uncovered Ordinary Fees**”). - 5.8.18 Any amounts payable under the Notes are based on the performance of the Charged Assets net of any Extraordinary Fees. The fees will be deducted from the Portfolio and therefore will result in a reduction of the NAV per Note. The Portfolio Manager has agreed to pay such Extraordinary Fees in the event that the Extraordinary Fees cannot be paid from the Portfolio. The Issuer may deduct any outstanding Extraordinary Fees from Interest Amounts or Redemption Amounts and may liquidate or otherwise realise Charged Assets in order to pay for any outstanding Extraordinary Fees.

Tax Liabilities

- 5.8.19 Any taxes **payable by the Issuer or for which the Issuer is required to reimburse any other party, whether in Ireland or** in any other jurisdiction, which are determined by the Calculation Agent to be attributable to the Series ("**Tax Liabilities**") will be charged to the Portfolio and result in a reduction in the NAV per Note.

Adjustment of Fee Calculations

- 5.8.20 The manner in which any fee described above is to be calculated may be adjusted from time to time by the Issuer provided that the Calculation Agent determines, in its absolute discretion, that such adjustment will not result in a material increase in the fee payable by the Issuer. The Issuer shall notify the Noteholders in accordance with the notice provisions of the Conditions in the event that such an adjustment is to occur.

5.9 Determination and Payment of Interest

- 5.9.1 On the Interest Determination Date, the Calculation Agent shall calculate the amount of Interest owing on the Notes and shall inform the Trustee, Principal Paying Agent and Issuer of the amount payable and interest shall be paid in accordance with the Conditions and the Agency Agreement.

The Issuer may, at any time realise a specified number of Securities in order to fund a redemption of Notes or to cover any fees and expenses of the Issuer. The Issuer or another person on its behalf shall take such action as the Issuer considers appropriate to realise such Securities. Any realisation proceeds of the Securities shall be used for the purpose specified by the Issuer.

5.16 Note as Debt Securities

Each Note is a debt security and at all times prior to its redemption in accordance with the Conditions represents an obligation of the Issuer to repay the outstanding principal amount of that Note together with, to the extent payable in accordance with the Conditions, any interest. The obligation of the Issuer to pay the Redemption Amount (including, where relevant, the Early Redemption Amount) on the redemption of each Note in accordance with the Conditions represents the repayment of the outstanding principal amount and to the extent that the Redemption Amount:

- (A) exceeds the outstanding principal amount, any such excess shall constitute interest in respect of such Note; and
- (B) is less than the outstanding principal amount, the Issuer shall have no further available funds to pay the deficit and any claim in respect of such deficit shall be extinguished.

The payment by the Issuer of any amount of interest which is comprised in the Redemption Amount in accordance with paragraph (A) above shall be in addition to and without prejudice to any other payments of interest which the Issuer is otherwise required to make in accordance with the Conditions. The failure of the Issuer to repay any outstanding principal amount in the circumstances described in paragraph (B) above shall not constitute an Event of Default.

5.17 Enforcement and Limited Recourse

- (A) Condition 5.2 of the Notes shall be replaced with the following:

“The obligations of the Issuer to pay any amounts due and payable under the Notes and the Series Documents shall be limited to the proceeds available out of the Mortgaged Property, subject to the security interests over the Mortgaged Property created by and pursuant to the relevant Constituting Instrument, the Trust Deed and / or, if applicable, any Charging Instrument and / or any Programme Accounts Security Agreement and the order of payments in accordance with Condition 3.3 (Application) of the Conditions (or as otherwise stated in the Conditions). Neither the Noteholders nor the Trustee will have recourse to any other general assets of the Issuer. After (i) the Mortgaged Property is exhausted (whether following liquidation or enforcement of the security or otherwise) and (ii) the application of the proceeds in accordance with Condition 3.3 (Application) of the Conditions (or as otherwise stated in the Conditions), and, save for lodging a claim in the liquidation

of the Issuer initiated by another person or taking proceedings to obtain a declaration or judgment as to the obligations of the Issuer, neither the Trustee nor any Noteholder may take any further steps against the Issuer or any of its assets to recover any sum still unpaid in respect of the Notes and, in each case, all claims against the Issuer in respect of each of such sums unpaid shall be extinguished. In particular, none of the Trustee, any receiver, the Noteholders, the Agents or the Programme Coordinator shall be entitled to petition or take any other step for the winding-up, liquidation, bankruptcy or dissolution of, or the appointment of an administrator, examiner, bankruptcy receiver, receiver or other insolvency official to, or any similar procedure in respect of the Issuer, in relation to such sums or otherwise, nor shall any of them have any claim in respect of any such sums or on any other account whatsoever over or in respect of any assets of the Issuer which are attributable to or purport to be security for any other Series.”

(B) Condition 5.3 of the Notes shall be replaced with the following:

In the event that the net proceeds described in Condition 5.2 above are insufficient to pay to the Noteholders amounts equal to the Redemption Amount and the interest which would otherwise be payable or accrue to the date of redemption, any shortfall shall be borne by the Noteholders and any other persons entitled to the benefit of the Security and the Early Redemption Amount will reflect such shortfall in the case of the Noteholders. None of the Trustee, the holder or holders of the shares in the Issuer (or if it is acting as a share trustee or custodian, the beneficiary or beneficiaries), the Programme Coordinator, any Agent or any other person has any obligation to any Noteholders for payment of any amount by the Issuer in respect of the Notes. The other assets (if any) of the Issuer including, in particular, assets attributable to or securing other Series will not be available to make up any shortfall.

5.18 Counterparty Priority

Condition 3.3.3 shall be amended to read as follows:

“For the purposes of this sub-clause 3.3 **“Counterparty Priority”** means:

- (1) first, to the payment of any unpaid taxes or other governmental duties or charges owing by the Issuer;
- (2) secondly, to the payment of any unpaid legal fees and any other unpaid fees, costs and expenses owing by the Issuer in relation to the Notes;
- (3) thirdly, in meeting the claims (if any) of the Noteholders *pari passu* and rateably; and
- (4) fourthly, in payment of the balance (if any) to the Issuer, or any other basis of distribution provided for in the relevant Constituting Instrument

or any other basis of distribution provided for in the relevant Constituting Instrument.”

6 USE OF PROCEEDS

The entire net proceeds from the issue of the Notes and any Further Notes, will be invested by the Issuer in the Custody Account and Securities Account, subject to the management of the Portfolio Manager on or as soon as practical following the

date on which Notes or Further Notes are subscribed for.

7 INFORMATION RELATING TO THE CHARGED ASSETS

7.1.1 General

The Issuer will use the proceeds of the Notes to invest in the Custody Account and/or Securities Account and, acting through the Portfolio Manager, invest in certain Securities from time-to-time. The Portfolio Manager will be responsible for identifying or selecting Securities and investment opportunities for investment.

The Portfolio Manager shall be obliged to perform its obligations in accordance with the terms of the Portfolio Management Agreement and shall be obliged to use all reasonable endeavours, in the course of carrying out such obligations, to fulfil the Investment Objective by pursuing the Investment Strategy in accordance with the Management Criteria.

7.1.2 Investment Objective

The investment objective is to generate consistent returns with low volatility through diversified asset allocation.

7.1.3 Investment Strategy

The Portfolio Manager follows a multi-sector diversified approach to generate returns primarily through strategic asset allocation across global equities, fixed income, commodities, and alternative investment markets. Its investment solutions aim to balance investor outcomes by leveraging a combination of active and passive indices, stocks, and bonds using a diverse range of underlying mutual funds, structured notes, and ETFs. While the Portfolio Manager's strategy encompasses a diversified portfolio across global markets, it recognises the potential opportunities that the US market presents and allocates investments accordingly. It is important to note that the Portfolio Manager's investment strategy does not involve short selling or leverage (although leverage may be used). Instead, it prioritises a disciplined and conservative approach to asset allocation.

The Portfolio Manager has established policy weights for each asset class to guide its asset allocation. These policy weights provide strategic targets for allocating investments within the portfolio. The strategic policy weights are as follows:

- (i) Cash & Equivalents: 5%, with a minimum of 2% and a maximum of 20%.
- (ii) Fixed Income: 36%, with a minimum of 30% and a maximum of 65%.
- (iii) Equity: 54%, with a minimum of 30% and a maximum of 65%.
- (iv) Alternative Investments: 6%, with a minimum of 0% and a maximum of 20%.

These policy weights seek to ensure the portfolio maintains a diversified

mix of asset classes that align with its risk and return objectives. However, within these policy weight ranges, tactical asset allocation may be utilized to take advantage of short-term opportunities or to address specific market conditions.

To mitigate risks and enhance performance, the Portfolio Manager's investment strategy incorporates a rigorous asset selection process based on specific criteria. It employs the following filters to identify suitable investment options:

Assets under Management: It requires a minimum threshold of USD300 million for consideration, ensuring that the selected assets have the necessary scale and stability.

Fund Inception: It prioritises funds with at least three (3) years of historical performance to evaluate their track record and assess their long-term viability.

Morningstar Rang: It selects funds with a minimum of 3 stars, leveraging the Morningstar Rang system as an additional quality measure.

Sharpe Rao: It evaluates the risk-adjusted returns of potential options by comparing their Sharpe Ratios to the average of their respective categories. It favours funds with superior ratios, indicating better risk-adjusted performance.

Expense Rao: Cost efficiency is a critical consideration. The Portfolio Manager avoids funds that rank in the top 25% of their category regarding Expense Rao, ensuring that its investments remain cost competitive.

Manager Tenure: The Portfolio Manager prioritises experienced fund managers with a tenure of 3 or more years, recognizing the importance of their expertise and ability to navigate various market conditions.

By incorporating these filters into our asset selection process, the Portfolio Manager strives to ensure that the chosen assets meets its standards regarding size, historical performance, range, risk-adjusted return, cost efficiency, and managerial expertise. This comprehensive approach enables it to construct well-diversified portfolios that balance risk and potential returns, providing investors with a robust investment solution tailored to their investment objectives and risk tolerance.

7.1.4 Management Criteria

When seeking to achieve the Investment Objective through the Investment Strategy, the Portfolio Manager will be obliged to comply with Management Criteria, which include investment restrictions, set out in the Portfolio Management Agreement and as replicated as Schedule I to this Series Memorandum.

The obligation to ensure that the Management Criteria have been adhered to will be the sole responsibility of the Portfolio Manager.

7.1.5 Securities

The Portfolio Manager may invest in Securities that meet the Management Criteria.

7.1.6 **Portfolio Manager**

The security interests and right of set off described in this paragraph are granted by the Issuer to secure the performance of obligations and liabilities to the Custodian under the Custody Account Agreement or any other agreement.

The Issuer's obligations shall include any actual and contingent obligations and liabilities owed by the Issuer to the Custodian.

The Custodian cannot be held liable for failure to perform under the Custody Account Agreement or for any losses caused directly or indirectly by any event beyond its reasonably control including but not limited to war, terrorism, acts of God, governmental actions, exchange or currency controls or restrictions, devaluations or fluctuations.

8.1.3 Investment in the Custody Account

By investing in the Custody Account, the Issuer will purchase certain Securities with the proceeds of the issuance and subscription of the Notes according to the Management Criteria.

8.1.4 Custodian

The Bank of New York Mellon, a wholly owned subsidiary of The Bank of New York Mellon Corporation, is incorporated, with limited liability by Charter, under the Laws of the State of New York by special act of the New York State Legislature, Chapter 616 of the Laws of 1871, with its Head Office situated at 225 Liberty Street, New York, NY 10286, United States and having a branch registered in England and Wales with FC No 005522 and BR No 000818 with its principal office in the United Kingdom situated at One Canada Square, London E14 5AL.

Any holder of the Notes will have claims against the Issuer only, and shall not have any rights directly against the Custodian.

8.1.5 Securities Account and IB Master Account

Under the Securities Account Agreement, the Portfolio Manager, as authorised representative of the Issuer pursuant to the Securities Account Agreement, may buy or sell securities or other products held in the Securities Account or to be held in the Securities Account, as applicable.

The Securities Account is to be used to invest in securities or other products on margin which involves the extension of credit to the Issuer from the Securities Account Provider. As a result, the Issuer's financial exposure could exceed the value of securities or other products in the Securities Account. Any such credit will accrue interest at the agreed rates.

The Securities Account Provider may, in the event of a dispute concerning a trade, upon a Securities Account Default (as defined below), or whenever it deems it necessary or advisable for its protection, sell any or all securities or related contracts in (i) the Securities Account or (ii) the IB Master Account, or buy any securities or related contracts relating thereto, in order to close out in whole or in part any

obligations of the Issuer pursuant to the (i) Securities Account Agreement or (ii) the IB Master Securities Account Agreement, respectively. The Securities Account Provider has the right to purchase for its own account any or all of the aforesaid property at such sale, discharged of any right of redemption.

A “**Securities Account Default**” refers to the Issuer being in default under the Securities Account Agreement and would include the Issuer being in breach of its obligations pursuant to the Securities Account Agreement, the Issuer becoming insolvent or if analogous proceedings are instituted against the Issuer.

Any credit balances, securities, assets or related contracts, and all other property in which the Issuer may have an interest and held by the Securities Account Provider or carried for the Securities Account or IB Master Account shall be subject to a general lien for the discharge of the Issuer’s obligations to the Securities Account Provider (including unmatured and contingent obligations) and the Securities Account Provider may sell, transfer, or assign such assets or property to satisfy a margin deficiency or other obligation whether or not the Securities Account Provider has made advances with respect to such property. Without notice to the Issuer, such property may be sold by the Securities Account Provider, and may be pledged, repledged, hypothecated, separately or in common with other securities or any other property for the sum due to the Securities Account Provider or for a greater sum, and without retaining such property in the Securities Account Provider’s possession and control, for delivery of a like amount of similar securities or other property.

In return for the Securities Account Provider agreeing to the extension or maintenance of credit in connection with the Securities Account or IB Master Account, the Issuer has agreed that the securities in the Securities Account and, IB Master Account together with all attendant rights of ownership, may be the subject of securities lending transactions, whether to the Securities Account Provider or by the Securities Account Provider to third parties. In connection with such loans, the Securities Account Provider may receive and retain certain benefits to which the Issuer will not be entitled. Further, there is a risk that substitute payments that the Issuer may be entitled to as a result of such securities loans may not be afforded the same tax treatment as actual interest, dividends and / or other distributions, that the Issuer may have been entitled to but for such securities loans, and the Issuer may incur additional tax liability for substitute payments that it receives. The Issuer would not be entitled to any compensation in connection with securities lent from the Securities Account or for additional taxes the Issuer may be required to pay as a result of any tax treatment differential between substitute payments and actual interest, dividends, and / or other distributions.

The Issuer is required to reimburse the Securities Account Provider for all costs and expenses incurred in the collection of any debit balance or unpaid deficiency in the Securities Account or IB Master Account, including, but not limited to, attorneys’ fees, as well as all actions, omissions, costs, fees (including but not limited to attorney’s fees), or liabilities associated with any Securities Account Default, or any transactions undertaken by the Securities Account Provider upon such Securities Account Default.

Pursuant to the Securities Account Agreement and the IB Master Securities Account Agreement, the Issuer is required to grant to the Securities Account Provider a security interest in and pledge to the Securities Account Provider any and all assets of the Issuer of any kind held by or on behalf of the Securities Account Provider for the Securities Account and the IB Master Account. The security interests described in this paragraph are granted by the Issuer to secure the performance of obligations

and liabilities to the Securities Account Provider under the Securities Account Agreement, the IB Master Account or any other agreement.

The Issuer's obligations shall include any and all indebtedness, liabilities or other obligations (including unmatured and contingent obligations) now or hereafter owed by the Issuer to the Securities Account Provider.

The Securities Account Provider cannot be held liable for any losses caused directly or indirectly by government restrictions, exchange or market rulings, suspension of trading, war, strikes or other conditions beyond their control, including, but not limited to, extreme market volatility or trading volumes.

8.1.6 Investment in the Securities Account

By investing in the Securities Account, the Issuer will purchase certain Securities and also have the ability to invest on margin. This means that the Securities Account Provider may, in its sole discretion, allow the Issuer to obtain an exposure to Securities with an aggregate value that exceeds the amount that the Issuer has invested, by allowing the Issuer to only maintain sufficient margin in the Securities Account to fund margin calls on the relevant position in the Securities (and not the face value of the Securities themselves). In this way, the Securities Account Provider provides the Issuer with leverage in respect of the Portfolio.

However, if the Net Asset Value of the Portfolio (and therefore the value of the underlying Securities) were to fall below a certain level, as determined by the Securities Account Provider in its sole discretion, the Issuer will receive a margin call from the Securities Account Provider. At this time:

- (A) the Issuer may issue Further Notes pursuant to Special Condition 5.10 and to use the proceeds of such Further Notes to fund the relevant margin call;
- (B) the Portfolio Manager may elect to meet such margin call from its own assets (and no amounts provided by the Portfolio Manager in respect of such margin calls are refundable to the Portfolio Manager by the Issuer); or
- (C) the Securities Account Provider may elect to liquidate positions by selling Securities or by terminating margin investments and retain the proceeds thereof to meet such margin calls.

While the leverage described above presents opportunities for increasing total return, it has the effect of potentially increasing losses as well subject to limited recourse and non-petition provisions contained in a side letter to the Securities Account Agreement from the Securities Account Provider to the Issuer, Trustee, and Broker Dealer of Record for the benefit of the Issuer. That is, where the income and appreciation on the Portfolio are less than the cost of the leverage (margin), the value of the Portfolio and the Securities Account (and therefore the redemption value of the Notes) will decrease. Accordingly, any event which adversely affects the value of the Portfolio would be magnified to the extent leverage is employed.

Therefore, an investor in the Notes should note the following:

- (i) the cumulative effect of the use of leverage in a market that moves adversely to a leveraged investment could result in a substantial

loss which would be greater than if leverage was not used;

- (ii) leveraged transactions involve the posting of margin and increases in the amount of margin or similar payments could result in the need for trading activity at times and at prices which could be disadvantageous to the Portfolio;
- (iii) some of the investment strategies employed by the Portfolio Manager may require the use of considerable leverage, there can be no assurance that margin will always be available and the terms upon which the Securities Account Provider is willing to provide credit may be subject to change; and
- (iv) as a consequence of leverage, interest expense may be material as a percentage of the Portfolio and the use of leverage means that even comparatively small losses, or insufficient profits to offset expenses, could rapidly reduce the Net Asset Value of the Portfolio.

Pursuant to a deed of confirmation, the Issuer will confirm to the Trustee that the Programme Accounts Security Agreement charges the Account Bank Agreement, Unwind Account Custody Agreement and any accounts held pursuant thereto in favour of the Trustee in respect of the Issuer’s obligations under Series 509 AV Balanced, provided that were the Trustee to enforce security following the default of this Series, its claim thereover would be limited to assets held in such account in respect of this Series only and no other Series.

Neither the Settlement Accounts nor the Settlement Agent Agreement will be subject to the security created by the Issuer pursuant to the Programme Accounts Security Agreement. Accordingly, Noteholders will be unsecured creditors in respect of any balance standing to the credit of the Settlement Accounts from time to time and will rank pari passu with

any other unsecured creditors of the Issuer in respect of such balance. Prospective investors should be aware that if other unsecured creditors were to make a claim in respect of such balance, the amount received by Noteholders may be less than would otherwise have been the case if the Settlement Accounts were subject to the security granted in favour of the Trustee. In order to minimise this risk, the Issuer will ensure that any cash balance of the Settlement Accounts is transferred to an account established pursuant to the Account Bank Agreement (which is subject to the security granted by the Issuer to the Trustee pursuant to the Programme Account Security Agreement) on a daily basis so that the cash balance of the Settlement Accounts at the close of business on each day shall be zero.

9.1.6 **Enforcement**

The Security may become enforceable if the Notes or any of them have become due and repayable (for example, due to acceleration following the occurrence of an Event of Default) and have not been repaid.

In such circumstances the Trustee at its discretion may, and if so directed by the relevant parties shall, upon being indemnified, secured and / or prefunded to its satisfaction, realise the Charged Assets. In realising the Charged Assets the Trustee may, but shall not be obliged to, procure the sale of the Charged Assets or may request the redemption of the Charged Assets if the Charged Assets allow for such request.

9.1.7 **Priority of Claims and Limited Recourse and Non Petition provisions**

Upon an enforcement of the security, the net sums realised could be insufficient to pay all the amounts due to the noteholders under the notes and the amounts due to the other Secured Parties. The Trustee, the Agents, the Back Office Agent, the Programme Coordinator and the Noteholders (in each case to the extent that their claims are secured) shall have recourse only to the Mortgaged Property. If, the Trustee having realised the Mortgaged Property, the proceeds thereof are insufficient for the Issuer to make all payments then due to all such parties, the obligations of the Issuer will be limited to such proceeds of realisation of the Mortgaged Property and no other assets of the Issuer will be available to meet such shortfall. Amounts owing to the Trustee (including any costs of a receiver or similar official), the Back Office Agent, the Programme Coordinator, the Securities Account Provider, the Custodian, the Portfolio Manager and the Agents and the other expenses of the Issuer in respect of the Notes shall rank prior to the Noteholders in the application of all moneys received in connection with the realisation or enforcement of the Security. The Trustee, the Agents, the Back Office Agent, the Programme Coordinator, the Securities Account Provider, the Custodian the Portfolio Manager, the Noteholders or anyone acting on behalf of any of them shall not be entitled to take any further steps against the Issuer to recover any further sum and no debt shall be owed to any such persons by the Issuer. In particular, none of the Trustee, the Back Office Agent, the Programme Coordinator, the Securities Account Provider, the Custodian, the Portfolio Manager and the Agents or any holder of the Notes may petition or take any other step for the winding-up, liquidation or examinership of the Issuer, and none of them shall have any claim in respect of any sum arising in respect of the Charged Assets for any other Series.

Investors should further be aware that while any holding of Notes they acquire may represent a particular portion of the Notes issued on the Issue Date,

their holding may ultimately represent a larger portion of the Notes actually acquired by investors.

SCHEDULE 1
MANAGEMENT CRITERIA

SCHEDULE 3

COMPOSITION OF THE PORTFOLIO

1 COMPOSITION OF THE PORTFOLIO

1.1 The Portfolio Manager shall be free to purchase, sell or otherwise deal with assets comprising the Portfolio subject to compliance with the Standard of Care, the Management Criteria and the remainder of the Portfolio Management Agreement.

1.2 The Portfolio Manager shall comply with the requirements and restrictions set out in Clause 2 (Management Criteria) below (the “**Management Criteria**”). The obligation to ensure that the Management Criteria have been adhered to will be the sole responsibility of the Portfolio Manager and, for the avoidance of doubt, the Issuer shall not have any obligation to supervise or monitor the activities of the Portfolio Manager with respect to the composition or trading of the assets held in the Securities Account.

2 MANAGEMENT CRITERIA

2.1 Investment Strategy

The Portfolio Manager will seek to achieve the Investment Objective by pursuing the Investment Strategy in accordance with the Management Criteria.

The Portfolio Manager follows a multi-sector diversified approach to generate returns primarily through strategic asset allocation across global equities, fixed income, commodities, and alternative investment markets. Its investment solutions aim to balance investor outcomes by leveraging a combination of active and passive indices, stocks, and bonds using a diverse range of underlying mutual funds, structured notes, and ETFs. While the Portfolio Manager’s strategy encompasses a diversified portfolio across global markets, it recognises the potential opportunities that the US market presents and allocates investments accordingly. It is important to note that the Portfolio Manager’s investment strategy does not involve short selling or leverage. Instead, it prioritises a disciplined and conservative approach to asset allocation.

The Portfolio Manager has established policy weights for each asset class to guide its asset allocation. These policy weights provide strategic targets for allocating investments within the portfolio. The strategic policy weights are as follows:

- (i) Cash & Equivalents: 5%, with a minimum of 2% and a maximum of 20%.
- (ii) Fixed Income: 36%, with a minimum of 30% and a maximum of 65%.
- (iii) Equity: 54%, with a minimum of 30% and a maximum of 65%.
- (iv) Alternative Investments: 6%, with a minimum of 0% and a maximum of 20%.

These policy weights seek to ensure the portfolio maintains a diversified mix of asset classes that align with its risk and return objectives. However, within these policy weight ranges, tactical asset allocation may be utilized to take advantage of short-term opportunities or to address specific market conditions.

To mitigate risks and enhance performance, the Portfolio Manager's investment strategy incorporates a rigorous asset selection process based on specific criteria. It employs the following filters to identify suitable investment options:

Assets under Management: It requires a minimum threshold of \$300 million for consideration, ensuring that the selected assets have the necessary scale and stability.

Fund Inception: It prioritises funds with at least three (3) years of historical performance to evaluate their track record and assess their long-term viability.

Morningstar Rang: It selects funds with a minimum of 3 stars, leveraging the Morningstar Rang system as an additional quality measure.

Sharpe Rao: It evaluates the risk-adjusted returns of potential options by comparing their Sharpe Ratios to the average of their respective categories. It favours funds with superior ratios, indicating better risk-adjusted performance.

Expense Rao: Cost efficiency is a critical consideration. The Portfolio Manager avoids funds that rank in the top 25% of their category regarding Expense Rao, ensuring that its investments remain cost competitive.

Manager Tenure: The Portfolio Manager prioritises experienced fund managers with a tenure of 3 or more years, recognizing the importance of their expertise and ability to navigate various market conditions.

By incorporating these filters into its asset selection process, the Portfolio Manager strives to ensure that the chosen assets meet its standards regarding size, historical performance, range, risk-adjusted return, cost efficiency, and managerial expertise. This comprehensive approach enables it to construct well-diversified portfolios that balance risk and potential returns, providing investors with a robust investment solution tailored to their investment objectives and risk tolerance.

2.2 Eligible Portfolio Asset

At the time of purchase, each asset must be an Eligible Portfolio Asset (as defined below).

2.3 Investment Horizon

10 years

2.4 Reference Currency

The Portfolio reference currency shall be USD. The foreign currency exposure will be hedged at the Portfolio Manager's discretion.

2.5 Allocation and Investment Restrictions

The management of the Portfolio will be subject to the following allocation and investment restrictions:

2.5.1 Investment Restrictions
